

Paid Research Partnership with the University of Utah

Help support elementary teacher candidates!

Use your teaching expertise to help prepare pre-service teachers by designing hypothetical teaching scenarios focused on enacting equitable elementary STEM instruction! Work with researchers at the University of Utah to develop and/or test scenarios for use in university methods courses.

Option 1: Scenario Development

Participate in 3 two-hour focus groups involving 6 teachers. The goal of these focus groups is to develop hypothetical teaching scenarios based on your own classroom experiences and teaching expertise.

When: March 2023 (specific dates to be determined)

Where: Virtually via Zoom

Time: After school

Payment: \$250 (for ~6 hours of participation)

Option 2: Pairs Interviews

Participate in an interview with a colleague to discuss the hypothetical teaching scenarios. Share your approaches to handling each situation, which will be used in methods courses to help prepare pre-service teachers.

When: April-May 2023 (will be scheduled based on your availability)

Where: Virtually via Zoom

Time: TBD (based on your availability)

Payment: \$50 (for ~1.25 hours of participation)

If interested in either opportunity, apply here by March 3, 2023:
